Dear [redacted],

Thank you for your funding application under the Attracting Tourism Fund (ATF).

I am delighted to advise that the Hazelwood Estate – Luxury Country Retreat ATF Business Case application (reference ATFSBC-02) has been successful in securing $1,842,500 (GST exclusive) towards the Country Retreat and Wagyu Beef Cellar Door project.

The ATF is part of the Queensland Government's ongoing commitment to invest in tourism products, experiences and infrastructure, to support tourism growth in Queensland and grow international markets. This project will support jobs, showcase the amazing Scenic Rim landscape to both domestic and international tourists, grow the tourism offering in the region and deliver much needed economic stimulus to the area.

Your ATF Case Manager, Ms Lee McCormick, Program Manager, Tourism Project Development, Tourism Division, DiTID, will contact you shortly regarding the formal financial incentive agreement and conditions to be incorporated into the agreement. If you have any questions or require any further information, please contact Ms McCormick directly via email at lee.mccormick@ditid.qld.gov.au or by telephone on (07) 3333 5147.

I look forward to hearing about the progress of your project and its contribution to Queensland tourism.

Yours sincerely

HON KATE JONES MP
Minister for Innovation and
Tourism Industry Development and
Minister for Cross River Rail

As this project has progressed directly to business case there is a vital breakdown we have not managed to capture that I have been able to find in the documents (please forgive me if it is here somewhere and I haven't got to it yet)..

Hi Lee

Please find a summary paragraph below.

Hazelwood's preliminary funding requirement of $1.2 million was determined based on initial estimates of project costs for the purposes of an informal post bushfire recovery meeting, and prior to engaging a quantity surveyor to confirm these estimates based on the new scope and designs. The formal funding request of $1.8 million reflects the confirmed capital costs.

We had a good meeting with SRSC planning team last week and there will be a couple of minor amendments which I think improve the overall appeal of the project and allow us to run multiple functions / retreats at once etc – dollar values and strategy are all consistent with our previous discussions but we will of course outline these improvements as part of this process.

Thanks again and look forward to hearing from you later this week and meeting next week.

No we won't need anything from you at this meeting. As you have previously been through a process with one of our other teams we are allowing you to skip the Request to Proceed process and go straight to Business Case. As the amount is under $2 million it should be a fairly painless process.

Attached is a cash flow spreadsheet which will be required for your application - it has tabs for both construction and operational stages.

I am hoping to be able to send you through the SmartyGrants link later this week so you can have a look and get started on the application.

Thank you for sharing your vision and your lunch with us yesterday.

I will be in touch once Neil has had a look at our pipeline and we can see whether it fits with our criteria.

As discussed yesterday, when determining international target market it is better to highlight only one or two markets and detail how this would be increased rather than say all 13 markets are the target. Debra and Brenda will be able to help you with these stats.

I'm looking forward to meeting you next Wednesday.

We're working through the application and making good progress, but it's still very much a first draft. Being conscious and respectful of your time, I would like to make sure that the draft we provide you with is in good enough shape to make the most of the time you have to review it.

With that in mind, would it be okay if I sent you a more progressed draft Tuesday PM (rather than this afternoon) in the hope that you may have a chance to have a quick flick through Wednesday morning before our 1pm meeting? If not, there are a few areas I would appreciate your guidance on that we can discuss in that meeting that won't need your prior review of the draft.

Hi [redacted]
Please find attached the test categories used by our third party assessors in their assessment of project eligibility for the ATF. As you are applying for less than $2M you do not need to provide a full Cost Benefit Analysis so just use this document for guidance against the sections that are required on the application form.

Subject: RE: Hazelwood Estate - Business Case

Hi Lee

I'm looking forward to meeting you next Wednesday.

We're working through the application and making good progress, but it's still very much a first draft. Being conscious and respectful of your time, I would like to make sure that the draft we provide you with is in good enough shape to make the most of the time you have to review it.

With that in mind, would it be okay if I sent you a more progressed draft Tuesday PM (rather than this afternoon) in the hope that you may have a chance to have a quick flick through Wednesday morning before our 1pm meeting? If not, there are a few areas I would appreciate your guidance on that we can discuss in that meeting that won't need your prior review of the draft.

Many thanks

Hi Lee

Please find a summary paragraph below.

Hazelwood's preliminary funding requirement of $1.2 million was determined based on initial estimates of project costs for the purposes of an informal post bushfire recovery meeting, and prior to engaging a quantity surveyor to confirm these estimates based on the new scope and designs. The formal funding request of $1.8 million reflects the confirmed capital costs.

Hi Sch. 4(4)(6) - Disclosing personal information

I tried to call you just now and left a message. I'm following up from an email you or Sch. 4(4)(6) - Disclosing personal information may have received today from our Minister's office, congratulating you on being awarded ATF funding.

Lee may have already communicated this to you late last year (apologies if she already has), but just thought I would remind you that this funding offer is conditional on:

a. The Applicant to provide a revised cash flow budget that clearly shows the application of indexation/inflation and revenue and demand assumption calculations within the financial model.

b. The Applicant to provide a revised project costings report that will encompass all necessary allowances, including contingency, demolition, permits and approvals, escalation and furniture, fittings and equipment costs.

c. The Applicant to provide evidence that they have obtained all relevant building and operational approvals prior to Project Commencement, and all relevant food, liquor and accommodation licencing approvals prior to the operational phase of the Project.

We will be working with the Minister's office to develop some kind of media announcement about the funding and until that announcement is made, we ask that Hazelwood and your other supporting partners (such as council) do not make any public/media announcement of the funding commitment.

Obviously, if you need to engage contractors etc, you can make the necessary arrangements. However if you have any questions about the public release of information, don't hesitate to call and have a chat.

Kind regards,

Arnae Burton

Thank you for sharing your vision and your lunch with us yesterday.

I will be in touch once Neil has had a look at our pipeline and we can see whether it fits with our criteria.

As discussed yesterday, when determining international target market it is better to highlight only one or two markets and detail how this would be increased rather than say all 13 markets are the target. Debra and Brenda will be able to help you with these stats.

Sensitivity: Normal

Hi Sch 6(4)(6) - Disclosing personal information

Sorry to chat with you earlier.

As this is a streamlined business case you will not be assessed against financial risks. As an FYI, here is a comment provided against this criteria:

Financial Risks:

The Applicant does not appear to have allowed for contingencies within the financial modelling. It is unclear if contingency costs have been built into individual cost items and therefore detailed costing for major cost items could be requested from the Applicant.

Please feel free to send me an email if you have any further questions. I will be on emails all afternoon today. Tomorrow I am on an interview panel so will have intermittent access to emails but will respond when I can.

When you send through the pdf of the application, could you please also attach all the attachments as well? Perhaps over 3 emails so they don't bounce when I send them off.

Thanks and good luck,

Hi Sch. 4(4)(6) - Disclosing personal information

I tried to call you just now and left a message. I'm following up from an email you or Sch. 4(4)(6) - Disclosing personal information may have received today from our Minister's office, congratulating you on being awarded ATF funding.

Lee may have already communicated this to you late last year (apologies if she already has), but just thought I would remind you that this funding offer is conditional on:

a. The Applicant to provide a revised cash flow budget that clearly shows the application of indexation/inflation and revenue and demand assumption calculations within the financial model.
b. The Applicant to provide a revised project costings report that will encompass all necessary allowances, including contingency, demolition, permits and approvals, escalation and furniture, fittings and equipment costs.

RTI RELEASE

c. The Applicant to provide evidence that they have obtained all relevant building and operational approvals prior to Project Commencement; and all relevant food, liquor and accommodation licencing approvals prior to the operational phase of the Project.

We will be working with the Minister's office to develop some kind of media announcement about the funding and until that announcement is made, we ask that Hazelwood and your other supporting partners (such as council) do not make any public/media announcement of the funding commitment.

Obviously, if you need to engage contractors etc, you can make the necessary arrangements. However if you have any questions about the public release of information, don't hesitate to call and have a chat.

Kind regards,

Arnae Burton

Hi Arnae

Thank you very much for the note and apologies for the belated response. I have been down on site today and just returned to the office. This is great news, we are certainly very appreciative and respectful of the opportunity the department is providing. I would like to thank Lee, yourself and the team for the assistance through this process and for making this possible. Thank you, we are incredibly excited about getting underway!

Please let me know once you have the financial agreement ready and we will work to turn this around asap.

Thank you again and look forward to the next steps.
